By Scott A Barry / Scott A. Barry / Scott Barry ... ;
The Anti Zionist Directory Listing ... ;
About the book : I was one day deciding to type tree into my terminal giving me the titles for every file available free off of an Internet Search, so it came to be, lastly Exfat and Fat32 are The Only Two Good Windows File Systems along with LUKS and Ext4, NTFS stands for Not That File System, This is truth ... ;

A Statement on What Happens When Humans Die : Martans Started Organized Religion To Control and Delude Mankind, Information on Remote Viewing is Censored by Zionists and Talmudic Jews, Talmudic Jews Control all the Search Engines, You have to DuckDuckGo inside of Tor Browser, Odom Manifesto PDF, The Protocols of the Learned Elders of Zion, NWO Blueprint, CFR also, ADL Bnai Brith also and Freemasonry runs everything at the bottom, Karly Noel Franz, Look that up and Martia Farmer Interviews Whitney Webb as Zionist Talmudic Jews Have more passports than Goyim do, and lastly When Humans Die They Become Telepathic Ghosts that are Telepathic Enough to see every segment of space time and they all know Where we will die, How We will die, What time and year and day we will die, and The Cause of our death, basically after you die it is Full Telepathy where you see every segment of space time and can remote view any part of the internet, any book ever published in history, any skillset including stuff that is just not on the internet, Death is where you have full on Telepathy to the point where you see every segment of space time and Talmudic Jews, Martians, Zionists, Freemasons Deliberately Censor Search Engines so you will never find that out ever, The system we live in is Freemasonic MKULTRA CIA, Human Trafficking, COINTELPRO FBI, Consolidated Bond Scams, Shell Corporations, CIA Created Cults ..... ;

REASONS TO HATE TECH NOLOGY : LISTED BELOW :

Flaws #flushyourmeds Scott Barry ;

By Scott A. Barry / Scott A Barry / Scott Barry ... ;

Let us point out all of the flaws of Modern Technology in this Technocracy, First and worst of all is the P****** G** F** CP problem that the Freemason Human Traffickers are involved in, do not install Amule a Peer-Peer Program on your computer, if you type in ("16200803") into it it will land you in jail for illegal material do not ever **** do that.**

The other problem that a lot of people hate about technology is mandatory 2FA through cell phones when you are stuck using Zelle and Protonmail instead of Paypal and Gmail. Then there is that fifteen month inactivity policy where all your crap gets deleted so all you have is Library of Congress, Harvard Law Library, Permacc, Archivetodayorg, webarchiveorg, and Archivers, because all the good truther websites have been deleted. Holywar dot org stopthepirates stopnoahidelaw blogspot itsthejews dot com judicial-inc dot biz and cchr org.

Another thing about technology that sucks as a Stoic, Search Engines, all of them are censored by Zionists, you have to use Tor on DuckDuckGo to get around your ISP filter to find certain websites censored by ISP,

We get that Mobile Internet Blows sure, that's the point, and Peer2Peer again Imule should not be on your computer as it is a gateway to illegal files and LUKS encrypt Geli Encrypt your drives so nobody puts illegal files on your computer, Erase all your old files, those were illegal files probably, they screw us up with garbage and smut to make us Servile, Docile, Stupid, Pliable, and easy to control, also they call these Freemasons H for a reason, it is MKULTRA Mind Control, now you have the system, it's like a hamster in a cage, being dependant on Big Pharma Drugs and Government, nothing ever gets any better, E-ink is too expensive so you have a blue light in front of your eyes, your microwave removes all the nutritional value from your food and even r****** know that,**

if you put a probiotic in the microwave for one second it will kill

all the good bacteria of that fermented food and make it dead and not

useful to the body, microwaves were designed for eugenics to kill you.

Also you have smart meters and 5G another waste of money that does

nothing for society and the greenies are actually harming the environment
and the pharmecies do not recycle their pills, then you have directed
energy weapons and dazzing to make people sick and voice to skull to
mentally destabilize targets of gangstalking, and again I do not get why
people think it's denegrating peer2peer to not install amule when if you
type in that acronym mentioned above you will land yourself in jail for
illegal p***, so who the hell is dumb enough to install that p2p program
on their computer just to look like a child predator, again most other
computers just ship with qbittorrent and that is it, that is all you need
then just download flacs responsibly not other illegal crap, I do not understand
why computers have this crap built into them where you can download amule then
land yourself in prison for illegal files, this life certainly was not for me,
also inactivity policys just create addiction where you are using the thing all
becuase it has a fifteen month inactivity policy, this whole society is based on
freemasonry and human trafficking and Zionism and World Jewry for Talmudic Jews.
You are hated in society for simply being white and European, none of this crap
makes any sense and since nine eleven and columbine happened we no longer have
rights and freedoms such as the second amendment and no privacy to commute outside
wihout being asked for state ID or just simply privacy inside of your own home because
you will get Voice of God Harassment and Directed Energy Weapons and Military Mold
in your own home to control you and micromanage you, these people were mind controlled
from birth by Martians, they beleive in fake history such as the Holohoax taught in
public schools by the victors, nothing they ever say is even important, so many people

push TV and Radio programming on you and you want to get away from that programming by
going from within or accessing it telepathically or going on the internet to get away
from useless propaganda that some Freemaons are pushing on The Stupid Goyim and we all
know this to be the case. Then you have hybridized round up ready seeds, all of those
are crap and the Amish are priveledged enough not to get those seeds and to ferment their
foods into a healthy probiotic and the fattest countries on earth ingest the least amount
of probiotics and fast the least and skip meals the least, because we were not meant to
ingest three meals a day and these karens tell you not to look at the sun when the sun
can improve and restore your vision giving you telepathy and perfect twentytwenty peripheral
vision and we know optomology is somewhat of a scam becuase if you keep wearing the glasses
you excercise your eyes the least and your vision gets worse thus you need new glasses for
your much worser vision, a Stoic sees it as autmobile accidents are also one of the leading
causes of death in the united states of ameri** and we know this to be the case.**
You have your abuse of technology such as Silent Spread Spectrum, Dazzing, Directed Energy
Weapons, Voice to Skull, Voice of God, Psychotronics, Lilly Wave Power Grid, SCALAR WAVES,
and so many other things including Qualcomms new 5G setup and we get this it is how it is.
Now as for the Dazzing, you literally will get a cup of coffee or a ciggarette, because of that
and you will literally not sleep because of it, or you will literally then you have sound
campaigns, they do an all nighter of constant sound campaigns, Same Time Exit Entry crap,
and lastly, Remote Viewing is old and was used for several years, there are people though that
at least keep a confidentiality and they have to becuase perps or gangstalkers are limited in
what they can and cannot do, also Social Media, only a distraction to waste time on the GOYS,
and you got no one in your life if you are on this patriot act watch list, family will disown you,

everyone around you who knew you will disown you, it is some serious nonsense, it does not get better,
and we have a system, you have CPS, Group Homes, IFB, Foster Care, all of them are tied to the Freemasons
and Sheriff's Departments and are heavily involved in CP, Sex Slaves, Human Trafficking, and illicit
activities, you local sheriff's departments are trafficking steroids and illegal drugs right now and
not being reported to the proper authorities, there is still no reform for the government as Zionist
Talmudic Jews and Freemasons have taken over this thing and made this place into Taco Bell Motel in
Hell and it all Smells, The Freemasons and Zionist Talmudic Jews have always been running the show
they blame our original white ancestors for the Holohaox taught by victor history and these schools
are modeled after the Prussian Model, bought by JP Morgan Chase, Rockefeller, Rothschild, and other
Talmudic Jew Zionist Globalists and nobody will tell you that anyways, it does not matter, everyone
is just brainwashed, Public School Prussian Model started in England First than the USA, and you
goat people do not ever get any of this why does it even matter, the non brainwashed are on a par
with Telepathic Ghosts instead people who died and are now Telepathic Ghosts those are the people on
our planet that are not brainwashed and realize it was always a Jewish Supremacy of Zionist Control,
yes there is bad optics and Hollywood Nazis sure, but simply simply read David Duke's book Jewish
Supremacism and reailze something, their Talmud is the book of the New World Order, now these brainwashed
people care more about sports teams than anything important or relevant, everything they say out of their
mouths ends up being crap, everything, the unbrianwashed have more in common with Telepathic Ghosts,
and that is always the state it will always be in, your internet is censored, you have to use TOR
just to unblock websites, you have no free press, most of the good websites are now moved to internet
archivers, it gets worse, does that in so many ways and that is what I am gonna say for this one ... ;

Another #flushyourmeds Scott Barry ;

By Scott A. Barry / Scott A Barry / Scott Barry ... ; Besides Virtual Machines and what I use Arch Linux, you can at least, besides virtualbox, run a Live USB Ventoy with Watt OS Linux to reduce your Government Footprint, this just works, make sure you are the latest 64 Bit Version, it will Screen Tare in ("VM") so use a Live USB then do not install it, installing it defeats the purpose, then add these simple hacks, Spoof your mac address to Random, set a DNS to 888844, install in Firefox Ublock Origin, Privacy Badger, Decentraleyes, Canvas Blocker, RYTD, then get the Tor or Brave Browser Appimage and run Tor Node to hide more info, it defeats the purpose to install the OS, for now I just run Arco Arch Linux as a Live ISO9660 to Ram Disk then get online quickly and do my bidding, On my main installed systems I use LUKS Drive Encryption, a Sudo Password for the Root and USER, I close all my ports as shown in my ("nmap") scan, I do what I gotta do, my browsers were always conventional and the tracking was just for ("convenience") they were Chromium, Brave, Firefox, Tor, and that is what I always ran as I have bills to pay and stuff to take care of as rendering certain parts of web does not work on other browsers so I have to use conventional stuff, My ("/etc/hosts") is modified to Block Most Trackers also so I do my computing the way I do it, SSD only LUKS, also Watt OS vs Puppy Linux you can see Initial Ram Usage is less, yet Watt OS gets more critical updates and there was a recent kernel patch for linux that was posted to the CVE so the latest Watt OS is the best pick as you get the latest version it will do the job, having outdated deprecated software is a bad idea, that is why I am on Arco Linux of course, latest and greatest means that thing posted to the CVE will be patched and I don't have to worry about deprecated software, again this is what I do, nothing special I still think you will always get average numbers on X86_X64, even with MIPS and ARM and Risc and Sparc you will still get average numbers as hackers have gotten better at their craft, and yeah you can still get Comodo or Clamtk for your Linux System, and Windows and Mac have always been the biggest Malware Magnets along with Android, and Graphene OS is what most phone users change to. This will be The Footer EOF ... ;
